## BEDRIJFSWAGENS

DEBA Bedrijfswagens is already for more than 30 years a reputable truck and van workshop and salespoint. DEBA is offering a very wide range of services on mobility.

Our international specialties are:

- Parts supplies of FIAT group and all other original and alternative makes, all over the world
- Repair and maintenance for trucks, trailers, buses, campers, aggregates all over the world
- Instructions and training on the spot by specialized mechanics

Without hesitation we can clearly speak about an allround professional workshop and sales organisation with proper knowledge about every aspect of transportation needs. Our goals is to always deliver; "quality, reliability and service at the highest level".

For the Southwest of the Netherlands, DEBA is the official main dealer for the brands IVECO and FIAT Professional. Our 4 outlets are in the southwest of Holland, Terneuzen, Kapelle, Bergen op Zoom and our biggest workshop and headquarters in Etten-Leur. With our strategic strong location in between the harbours of Antwerp and Rotterdam we can handle strong, solid and quick transport internationally. We also have a wide experience with airfreight at the airport of Schiphol Amsterdam. In Etten-Leur we have a wide variety of stock mainly on IVECO, FIAT Professional and Astra brands but also on often used alternative makes.

DEBA has an implemented quality management system that conforms the standard NEN-EN-ISO 9001:2008. This certification is subjected by TUV Netherlands. Since December 2010 we are certified to be a sustainable company.

Due to our strong growth the last years in export we gained a lot of experience of working all over the world. This means we know the extreme conditions which are faced and we build our product and parts supply on this knowledge. All this to provide maximum mobility with as less workshop visit as possible. This also includes that with some complex breakdowns or training needs (both on workshop knowledge as well as on driving skills) we send in our specialists to do the job on the spot. At maximum 4 days we are able to send someone everywhere.
